

NGUYEN MINH TRI

As a final-year Information Systems student with a strong passion for remote sensing, data, and spatial analysis, my current research focuses on evaluating and testing spatial interpolation methods and machine learning algorithms to identify suitable models for secondary datasets. I also have experience in supporting field surveys and UAV data collection and processing, with an interest in integrating GIS, remote sensing, and AI into research and real-world applications.

- Nong Lam University - HCMC
- tringuyen05.id.vn

SKILLS

Self-Management & Discipline
Problem-Solving
Academic Presentation
Team Collaboration

TECHNICAL SKILL

Database: MySQL, PostgreSQL
Programming Languages: Python, R, Javascript
GIS Tool: ArcGIS, QGIS, GEE

RESEARCH DOMAINS

Spatial Analysis
Algorithm Optimization
Applied GIS & Remote sensing

ACADEMIC ACHIEVEMENTS

Second Prize | Student Scientific Research Conference (2025)

Certificate in 'Earth Observation and Geospatial Intelligence in Water Resource and Ecosystem Management' by IMRWG.

Outstanding Student Award for the 2025-2026

EDUCATION

- Information System
2023 - 2027 Nong Lam University - HCMC, Viet Nam
(09/2023- Now)
GPA: 3.30/4.0

EXPERIENCE

- 2025 - NOW **Research Intern:**
MATHY-NLU, Nong Lam University - HCMC
(08/ 2025 - Now)
<https://sites.google.com/hcmuaf.edu.vn/doxuanhong/opportunity>
- 2026 **UAV Technical Intern**
IdeasDrone Technology Development and Investment Co., Ltd. (06/ 2026 - 09/2026)
- 2026 **GIS Technical Intern**
Ho Chi Minh City Center for Information Technology and Geospatial Applications
(06/ 2026 - 09/2026)

PUBLICATION

- 2025 **Proceeding Viet Nam NATIONAL-GIS 2025:** Xây dựng mô hình số độ cao cho hạ lưu sông của Ba Việt Nam.
ISBN: 978-632-608-542-6
- 2025 **IOP Conference Series: Earth and Environmental Science:** Assessment of multiple spatial interpolation techniques for rainfall mapping in Ho Chi Minh City .
doi:10.1088/1755-1315/1633/1/012032
- 2026 **Proceeding Viet Nam NATIONAL-GIS 2026:** Đánh giá độ chính xác một số mô hình số độ cao toàn cầu tại hạ lưu sông Ba Việt Nam
